arrested Corporal L. S. Archer, but he was also discharged.

Just before the girl was found the parents of the girl received a letter from Brooklyn presending to be from the girl. It said that she was well and was with Jones. She begged her parents to keep quiet and she would return in a few days and tell them all about her disappearance. By comparing the handwriting in this letter with that of the different members of the regiment it was found to correspond with that of Rosenheim. He heard that the officers were searching for him and left the city. He was heard of afterward in Kansas City and Louisville. Fie returned to this city about a month ago, and the officers learned that he was here by seeing some personals in the newspepers a few days ago. They were addressed to "Cora" and were to the effect that "Jim" had come back and wanted to renew their friendship.

DEPRESSED FREIGHT-HANDLERS. DEPRESSED FREIGHT-HANDLERS.

The meeting of freight-handlers at Military Hall, No. 193 Bowery, vesterday, which was called by Jeremiah Murphy and others for the purpose of consolidating the freight-handlers' unions, was not a success. When after waiting for more than one hour Mr. Murphy called his meeting to order, there were present nine freight-handlers and four reporters. Later another freight-handlers and four reporters. Later another freight-handler and another reporters appeared. Mr. Murphy first called the attention of the meeting to the fact that there were reporters present, and asked whether they should be permitted to remain. It was evident that their presence had a depressing effect, and presently one man summoned up courage to say in a mild way that he thought that more business could be transacted in their absence. After a long pause another man suggested that they might be permitted to remain.

another man suggested that they might be permitted to remain.

In despair of reaching a conclusion, Mr. Murphy proceeded with business. He pented out the necessity of organization. In their last strike, he said, they had held out for eight weeks against their employers; but the combination against them was too strong and hunger forced them to surginder. Workingmen should take lessons from their enemies, the capitalists, and combine. He suggested the formation of three branches, two in New-Yark and one in Jersey City. Silence followed Mr. Murphy's remarks, but at length it was resolved to invite the members of the old organizations to take part in the movement. Another meeting will be held on next Sunday. held on next Sunday.

CONDEMNING THE LABOR CONVENTION.

CONDEMNING THE LABOR CONVENTION.

There was a good artendance at the meeting of the Central Labor Union at Clarendon Hail, in Thirteenth-st., yesterday afternoon, notwithst nding the disagreeable weather. W. Vincent Woyniscek presided. "No civilized community in the world," said Mr. Gallagter, one of the speakers, "would permit the outrages that the evidence given before the Legislative Committee on Prisons shows are committed in the prisons of this country. I move that the delegates of the Central Labor Union protest against such a treatment of unfortunate men, that we demand the arrest of those responsible, and that we forward these resolutions to the Governor of the State."

The delegates adopted the resolutions, and then a storay disconsiston ensued on the action of the Labor Convention last week at Albany. George Biair, president of the convention, was called upon to expain why the minority report that "the private ownership of land was the direct cause of all the troubles of labor, and that the land of the people should be free to the people," was rejected by the convention. "Because," said Blair, "the convention of attaining them and left visionary projects to the fuller, thereby showing its own wisdom and winning the attention of the Legislature." Blair was proceeding to explain that "neither this generation, nor the next, nor the one after that" would ever see the land of the people belonging to the people, when an uproar arose and he sat down. A. Schlag proposed that the union should "condemn the action of the Albany Convention in killing the land resolution," and this was carried by a vote of 46 to 7. A discussion arose as to whether fortunity instead of weekly meetings had not better be held, as the hall cost \$5 and there was no money in the reasury. The reason did not seem sufficient, and the change was voted down. Some expressions of derision were evoked, when the secretary read an invitation to attend the massume ting to be held on February 1. At Cooper Institute, and to be presided over by Peter

A DAY OF UNCEASING RAIN.

A DAY OF UNCEASING RAIN.

"A wre ched day" was the aimost universal verdict of those who ventured out of doors yestedday. There was a steady fail of rain from Saturday evening until last night. The half-meited ice in the streets was in many instances half-concealed by mud, and many pedestrians came to grief thereby. The character of the day was shown by the slim attendance in the cours hes. Had the day been fine, the Street Cleaning Department and Contractors Brown and Walton wou d have made an effort to put the majority of the business streets in good condition. The storm effectually prevented the work. The rain proved beneficial in one respect. It meited the ice in the rivers and harbor, and the ferry-boats were able to force their way through the floating ma ses much easier than for several days previous. The staten Island for the search of the location of the location was some of the boats were laid up for repairs. Only one boat rain during the day on the South side of the island. The paddle-wheels of the others were so much damaged, that it was necessary to put new buckets on them, and men were busy at the work day and night. The South side boat rain only at intervals of two hours, and made her last trip from the city at 8 p. m. from the city at 8 p. m.

NO CLEW TO A ROBBERY.

NO CLEW TO A ROBBERY.

The police of Staten Island have no clew in regard to the robbery of John Long, the driver for Louis Defonge, a paper manufacturer of Stapleton, whose place of business is in this city. Long started from this city for Staten Island on Friday, and \$1.400 to pay off the 200 men at Stapleton were stolen from a stationary box on his wagon while he was on the ferry boat. The box was broken in with a co-ton-hook belonging to the wagon, and this was missing when Long reached stupleton. He did not discover his loss until he had partly unloaded his truck. The ponce think it possible that the box was broken into before Long went on the boat. Staten Island drivers are often robbed of boxes, Staten Island drivers are often robbed of boxes, etc., in the lower part of the city, especially in Greenwich-st., and they are obliged to keep a sharp lookout when passing through it.

Samuel Colcord was held yesterday atternson. Music was furnished by a large chorus, The Rev. R. S. Naturalism is wont Curiyle long ago called the Gospel of dirt.' Spiritualism is a contemptible

THE ORDINATION OF AN EX-BROKER. THE ORDINATION OF AN EX-BROKER.
In the First Reformed Episcopal Church, at Madison-ave, and Fifty-fifth-st., of which the Rev. Dr. Sabine is the pastor, Oscar F. Brown, formerly a well-know, banker and broker in Wall Street, was ordained yesterday a minister of that denomination. Bishop Nicholson, of Philadelphia, conducted the ceremonies or ordination. The text of his sermon was II. Timothy ii., 16. "Thou, therefore, my son, be strong in the grace that is in Christ Jesus." The Rev. Drs. Sabine and Gallagher, of this city, and the Rev. Drs. Two years ago Mr. Brown started a mission in Fifty-second-st., near Teath-ave., which is one of the worst localities in the city, which he called Zion Chapel. He spent a great part of his time is the work, which proved a creat success, and the chapel now has ninety communicants and 350 scholars in the Sunday-school. Mr. Brown became so interested in mission work that he decided to devote the rest of his life to the ministry, and prepared himself for that purpose. He preached at the chapel yesterday afternoon and evening. A number of prominent gentlemen have recently become interested in the mission, and Mr. Brown expects to build a church in the vicinity of the chapel shortly, as the present accommodations are not sufficient.

DR. PECK ON "TRUE TEMPERANCE."

The Manhattan Temperance Association held its regular Sunday afternoon meeting yesterday in the Masonic Temple at Twenty-third-st, and Sixth-ave. The Rev. Dr. Peck delivered a lecture on "True Temperance." In speaking about the opinions of the Rev. Drs. H. C. Potter and Wilham H. Ta-lor on the subject of prohibition as expressed in the current number of The Christian Union, Dr. Peck said that they had taken a narrow view of the subject of prohibition. "It is the rum-sellers," said one speaker, "who contribute so largely to the support of our wealthy churches, and these doctors of divinity, recognizing that truth, naturally deem it very inexpedient to denounce the liquor traffic. They don't intend to jeopardize their position and annual salary of \$10,000 by making an open declaration of what they sincerely believe to be for the best interests of the-American people. They don't see it and they don't want to see it, and perhaps I might see it in the same way if I had hundreds of men in my charch who sat in my pews and paid me \$10,000 a year.
